Future Job Growth- information from the My Career Match website: Over the three years to November 2019, employment is projected to increase in 17 of the 19 broad industry groups, with declines in employment only projected for Mining and Manufacturing. Health Care and Social Assistance is projected to make the largest contribution to employment growth.

The Department of Employment projects an increase of 1.166 million new jobs over the next three years and the growth is driven by these top 6 industries. Projected jobs are in brackets.

1. Health and Social Assistance (258,000)
2. Education and Training (143,000)
3. Construction (138,000)
4. Professional, Scientific and Technical Services (137,000)
5. Accommodation and Food Services (112,000)
6. Retail (111,000)

The 1.166 million new jobs will require employees with these qualifications - Degree (466,000), Cert III / Diploma (700,000).

CSU is searching for their 2017 engineering students: Charles Sturt University launched their new Engineering course this year, which is unique to Australia. Students undertake a Bachelor of Design Technology/Master of Engineering over 5.5 years. They complete the first 18 months at the Bathurst campus studying in state of the art facilities, then complete the rest of their studies as a paid student engineer over four year long placements. They will accept only 30 students and are looking for entrepreneurial young people who want to change the world, http://bit.ly/1MimaPY
Science news: Be inspired by the latest stories featured on RiAUS – Australia’s Science Channel. Some of the topics covered this week include:

- Over 500 products contain glyphostate, making it the most widely used herbicide in Australia. But just how toxic is this chemical?
- Watch videos of young people engaging in amazing science research.
